

(application programming interface).

Private Function

This function is used where the same code will be repeatedly used. Choose a single four digit User Code to use multiple times. Ideal for use where the lock is allocated to a single person for a long period of time.

Public Function

This function is used for short-term, multiple occupancy applications. Enter a four digit User Code to lock the locker, the same code is used to unlock. The lock remains open, ready for a new user and a new code.

TYPES OF NETCODE

Five types of NetCode are available:

- Short-term multi-use codes with durations from 1 to 12 hours and 1 to 7 days
- Short-term single-use codes with durations from 1 to 12 hours and 1 to 7 days
- Medium-term codes with durations from 1 to 21 days + 28 days
- Long-term codes that work for periods of up to 1 year

The NetCode Portal is an online service that enables you to create remote codes for your NetCode enabled lock. The following service and usage fees apply:

Service Fees

Note: From Spring 2017 our NetCode charges will be changing to transactional billing. Rather than levying an annual bulk lock registration fee, there will be a simple charge for each NetCode generated. To generate NetCodes, you will need to purchase a credit pack. 1 NetCode or 1 SMS = 1 Credit. Two credit packs will be available:

- Entry – 100 credits (€18.15)
- Standard – 1000 credits (€169.40)

Prices shown are excluding VAT.

Please Note: When you register for an account you will receive 20 free credits.
